

New Jersey Department of Environmental Protection
New Jersey Administrative Code
Title 7, Chapter 1E

Subchapter 3

Transmission Pipelines

Adopted: August 30, 2001
Effective: September 29, 2001

Table of Contents

- 7:1E-3.1 Scope
- 7:1E-3.2 Registration of transmission pipelines
- 7:1E-3.3 Standards
- 7:1E-3.4 Discharge cleanup information

7:1E-3.1 Scope

This subchapter prescribes the rules of the Department for information to be submitted concerning transmission pipelines. The following rules shall govern the preparation and submission of registrations.

7:1E-3.2 Registration of transmission pipelines

(a) By February 1, 1992, and by each February 1 at five year intervals thereafter, the owner or operator of a transmission pipeline shall submit the following information to the Department, on forms provided by the Department:

1. The business name(s), address and telephone number of the owner or operator of the facility;
2. The name and business address of the owner or operator's registered agent;
3. The storage capacity of any facility;
4. A description of the hazardous substances which are stored, held, handled, transferred or transported by the facility;
5. The transfer capacity and the average daily throughput, on an annual basis, of the transmission pipeline for each hazardous substance;

6. An accurate map or maps, showing the location of each of the owner or operator's pipeline facilities, storage areas, transfer areas, or other structures in or on which hazardous substances are stored or handled, the geographical features of the surrounding area, and the location at which the pipeline facility enters or leaves the State. Those maps which are currently maintained pursuant to regulations of the U.S. Department of Transportation are sufficiently accurate;

7. An inventory of all types of pipe used for the transmission of hazardous substances, including a history of major repairs, major maintenance and major leaks from all pipes; and

8. Any certifications required pursuant to N.J.A.C. 7:1E-4.11(b).

(b) Any change in the information supplied pursuant to (a) above or N.J.A.C. 7:1E-3.4(a) shall be reported to the Department within 60 days.

(c) The information required by (a) or (b) above shall be sent to:

Bureau of Discharge Prevention
New Jersey Department of Environmental Protection
P.O. Box 424
Trenton, New Jersey 08625-0424
Attention: Pipeline Registration

7:1E-3.3 Standards

All transmission pipelines shall conform to 49 CFR 195, "Transportation of Liquids by Pipeline", and any future supplements and amendments thereto.

7:1E-3.4 Discharge cleanup information

(a) By February 1, 1992, and by each February 1 at five year intervals thereafter, the owner or operator of a transmission pipeline shall submit the following information to the Department at the address specified in N.J.A.C. 7:1E-3.2(c):

1. A summary of the action plan used in responding to, and minimizing health and environmental dangers from, fires, explosions or discharges, including the deployment of personnel and equipment, the chain of command for an emergency response action, and notification procedures pursuant to N.J.A.C. 7:1E-5;

2. A list of containment and removal equipment and materials to which the transmission pipeline has access through ownership, contract or others means, including, but not limited to, vehicles, vessels, pumps, skimmers, booms, chemicals, and communications devices;

3. A list of the trained personnel who are available to operate such equipment and a

brief description of their qualifications. In lieu of supplying a list of names, the owner or operator may supply a list of job titles of employees who will be assigned to operate containment and removal equipment, and a statement of the minimum qualifications that will be required of each employee so assigned;

4. The name, title and 24-hour business telephone number of facility's response coordinator or other person authorized to hire contractors and release funds for discharge response, containment, cleanup and removal. A response coordinator or alternate shall be available at all times; and

5. Procedures for determining the recycling or disposal options for hazardous substances or contaminated soil, debris, and so forth gathered during cleanup and removal operations.
